

Which birds can you hear when you wake up?

- I actually can't hear any birds because I live in a big city and unfortunately there are just car noises.

Which birds can you hear during the day and in the evening?

- Sometimes I hear pigeons.

Does the bird choir intensity change during the day?

- I wouldn't know.

Can you recognise the songs of different birds?

- Sometimes yes.

Why do the birds sing?

- First, male birds sing to mark territories. The second purpose of singing is to attract a mate for nesting.

Do you think they sing all year around?

- I think so but I'm not sure.

Which birds are the best singers in your opinion?

- I really like Canary's voice.

White owl is my favorite bird, here's a photo of it:
